### **Reasons for Allowance**

3. Examiner has reviewed and considered Applicant's arguments and amendments as presented in Applicant's response of 05/15/09 and per Applicants arguments on pages 11 – 14 of his response, claims 1 – 11, 18 – 19, 22, and 27 – 29 are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least the combined limitations of:

"...the wireless mobile phone downloading a descriptor file pertaining to the content, wherein the descriptor file includes a Uniform Resource Identifier (URI) that identifies an application for handling the content, and wherein the descriptor file includes at least one attribute other than the URI and other than an attribute that indicates a location from which the wireless mobile phone can download the .content;

the AMS of the wireless mobile phone processing the downloaded descriptor file at the wireless mobile phone so as to determine whether the at least one attribute is present in the descriptor file and to determine whether the wireless mobile phone includes an application to handle the content; if the AMS of the wireless mobile\_phone determines that the at

least one attribute in the descriptor file is present, then thereafter downloading the non Java content to the wireless mobile information if the AMS of the wireless mobile\_phone determines that the at least one attribute is missing from the descriptor file, then not downloading the non java content to the wireless mobile phone...", and as best illustrated by FIG. 12, in such a manner as recited in independent claims 1 and 29.

Therefore, all claims remaining claims 1 – 11, 18 – 19, 22, and 27 – 29 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
